Judges Report Mrs Nicky McDermott

GSDC of Queensland Members Competition Sunday March 14th

I would like to express my appreciation to the club for the invitation, I very much enjoyed my time there and the event. The hospitality shown to me, particularly by Sharon Thorp was second to none. A big thank you to my steward ????? and Gail Donald for photographing the exhibits. To the many exhibitors both from Queensland and interstate that entered, without you there wouldn't have been a show. It was a pleasure to judge your dogs despite the heat and humidity on the day and I appreciate your support. I was impressed with how well the grounds looks given we are just over Summer.

I was very pleased that all of the animals were well behaved during teeth checking and measuring. Over the past couple of years this has been an issue, I would have expected more to play up or react given the restrictions that Covid has placed upon us. Most of the animals measured were large to very large. Some were presented in too heavy condition which quickly became evident in the heat. I think fitness may have been an issue too. I understand that the weather in Queensland of recent times was not conducive to training and conditioning dogs.

All of the animals presented were confident and happy to be out. I wasn't sure what to expect given how badly lockdowns have impacted training, socializing and mental wellbeing.

I did notice a number of weak pasterns and steep pasterns. This seems to be an issue creeping into the breed. Also a number of long tails and tails not carried correctly or twisted and cast to one side. Some ligamentation was too soft and not always in animals that were too heavy.

Eye color in general was medium to dark with very few light eyes. Some hindquarters were a little deep, however the issue with hocks being loose was not an issue this weekend which is pleasing. Some animals did have a peak or a rise in the back, this is something we need to be mindful of as especially on the gait it was the highest point of the animal's back. Most animals stood correct in front.
