

Show Report – Melanie Groth (Judge)

The GSDCQ Members Competition was held at the Dogs Queensland facility at Durack on Sunday 24 March 2024. I must commend the committee on an extremely well organised and well-run competition for their members. From a judging perspective I would have to say it was one of the best run shows I have adjudicated at. I could not fault the team that worked with me in the ring. I was fortunate to score an exceptionally talented steward in David who was on the ball and looked after me the entire day and Nicky Jones typing my critiques relentlessly. The work of a talented steward and stenographer is the difference between shows running on time and not being rushed at the end of the day. I thank them both for their excellent work throughout the show.

The set up and size of the rings was perfect and whilst the weather was indeed not too kind with drizzle most of the day, at least it wasn't blowing a gale. This made for good showing conditions for the dogs, not so great for the handlers and photographers. The live stream conducted by Bronwyn Hurley and Jo Cathie in the absence of Allison Drinkwater was outstanding and they both remained unobtrusive to the judging and enabled people at home to enjoy the show from afar. Gail Donald, as always spent her entire day capturing great images of the dogs and the people and these photos were placed on Facebook within 24 hours of the finish of the show. We are so lucky to have her. I can't wait to see what she does with the Quarterly Review. Of all the people in the ring Gail was probably the most compromised by the weather but in true Gail style you would never have known it was an imposition.

Out of 62 entries, 51 presented on the day. Despite the numbers I was fortunate to have some absolutely beautiful animals entered under me. The Best In Show was the amazing Ch Kaygarr Esther (LSC) handled by Peter Hersant. She was presented in top form and looked a treat. The Runner Up In Show was the well credentialed Kuirau Willow handled to perfection by Kylie Zimmerle who took the Best SC bitch award at her first outing in Open after a litter. Both bitches performed superbly and moved exceptionally well in the run offs. The Best Dog awards were taken out by the Debbar brothers Quacker (LSC) and Quoll. Both males have made the transition to the open class really well and put in really good performances on Sunday. The outstanding Ch Cinderhof Diaablo was Reserve LSC male performing very well also. Reserve dog to Quoll was the Intermediate dog, Ineffible Emmanz who was surveyed by Louis Donald the day before. The reserves in the females went to the young Junior Gabmalu Liberte (LSC) and the Intermediate SC Kelinpark Wispa. Both bitches in top form and condition.

The young classes were light in numbers and there were some nice puppies presented. Overall, I noticed very good colour and pigment, good eye colour on most. Some of the young males were not really strong enough in the bones and lacked somewhat in masculinity. There were a lot of animals bordering on maximum hindquarter angulation. The withers in general were mostly level. I critiqued a number of dogs with a bend in the lumbar region of the spine that leads to a steep croup and a deepening of the hind angulation. It was noticeable that many of these dogs bring too much drive from the rear and this effects the timing of the footfall between the reach and the drive, causing some to high step, hesitate or at times skip. A lot of long tails that have casts or kinks. These are all things we need to be mindful of when breeding going forward.

In closing, it is of utmost importance to thank Fred Flower and Sharon Thorp for their amazing organisation and for running an exceptional show. Thanks to Royal Canin – Bill and Denise Smith for your support of the Club and show. Thank you to GSDCQ for the invitation to judge and to the exhibitors for accepting my decisions with good grace and sportsmanship.

Chili Della Valcuvia x Bluemax De Jayla

2 ½ years. Unfortunately, the bite is overshot; the underjaw is too short and the bite is incomplete, and does not mesh correctly with the upper jaw. 63cm 30.5cm. Above medium size, strong and substantial, well-constructed, handsome, slightly elongated male of pleasing type. Slight up-face and roman nose. Beautiful dark masking and eye colour. Ideally the lips should be a little tighter. Strong powerful neck, high wither, level topline and well moulded croup. Very good fore and deep hindquarter angulation, broad powerful thighs. Good length of foreleg good fore and under chest. Tail has a cast to the left. Stepping cow-hocked and narrow at rear and not quite correct in front, where the elbows should be a little more closed. On the day I awarded him a good grading, however the standard requires a complete scissor bite and according to GSDCA guidelines as a result, he cannot be graded.

2 years 1 months 64.5cm 29.5cm. Large, medium strong, richly coloured and pigmented expressive, very handsome LSC male of excellent type and ring presence. Very good head and expression with dark mask and eyes. Ideally the stop should be a little more pronounced. The ears are set just a little close on the skull. Very good topline, very good fore and maximum hindquarter angulation, where the femur is too long and the tibia a little short. Good fore and just slightly short under chest, with very good length of foreleg. Ideally the pasterns should be a little firmer. Stands and steps cow hocked at rear and narrow at front. In movement he displays very powerful drive and free forereach that initially is high stepping until he settles. He always maintains a high wither in movement and stance and completed the class with much energy and enthusiasm. Gun sure.

Ch. *Shernaa Pakros Ht (Imp Uk) A Ed H-Neg Ipo2 x Debbar Ophelia 'A' 'Z' Bsc 11 months A rather large, masculine young male who presens quite a nice picture in stance. Richly coloured and pigmented. Compact proportions. Good head, desired dark eye and mask. The lips should be tighter. Nice outlook, strong neck. High wither, firm back that has a distinct bend in the lumbar spine and very steep croup. Good fore and deep hindquarter angulation. The femur and tibia are too long. The length of the bones in the hindquarter impede the dog's sequence of steps. Stands a little narrow in front. Very loose hocks and elbows. The tail has not quite the correct carriage. The movement lacks balance and shows just good drive with very good reach with the sequence of steps requiring much more development. Presented in slightly heavy condition, the ligamentation over the backline should be firmer.</p>

17 months. 62.5cm 28.5cm. Above medium size, medium strong, well coloured and pigmented, elongated male of good type. Well coated and presented for the show ring. Good head, dark mask, Good strength of upper and lower jaws. The expression is marred by a round shaped eye and ears that are set a little low on the skull. Ideally the neck should be a little longer and is set slightly erect into level withers, a firm back and a well moulded croup. The upper arm should be longer. Deep hindquarter angulation. Broad thighs and a long tail. Good fore and very good underchest. Steps correct at rear with loose hocks, slight stepping action in the forereach, lifting from the elbow. The movement should show a little more balance with too much power from the rear and a shortfall in the reach and that impedes the flow and the sequence of steps.
